Baton Corporation Ltd are a company that was started in 2023 by myself and others, including the Chief Technical Officer Dylan KERLER. The company has released a variety of products, one of which is a website called pump.fun. This website allows people to create tradable cryptocurrency coins, and to buy and sell cryptocurrencies, the website utilises automated software running smart contracts that are hosted on Solana's blockchain.

I've also been asked to confirm some information about staff at the company. At the time of the theft on 16th May the company had 10 full time members of staff involved in running the company, including myself, Dylan and Alon. Most of the others live abroad. At the time of the theft I was in the office along with Dylan, Alon and Preston, and also present were other staff members Ohad MOSHOVITZ, Octavio AMUCHASTEGUI.
